TREMCO
Construction Products Group

INTRODUCING TREMCO CONSTRUCTION PRODUCTS GROUP

A world leading supplier of building envelope solutions

At Tremco Construction Products Group (CPG), we understand that true success in construction goes beyond using the right products. It is about combining skill, knowledge, and expertise to apply those products in the most effective way possible.

Innovation That Shapes the Future
We are dedicated to driving the construction industry forward with innovative solutions and sustainable approaches. Our extensive range of high-performance products provides the tools you need to create structures that are not only easier to build and maintain but also withstand the toughest challenges.

A Comprehensive Suite of Solutions
From joint sealing, façade bonding, and insulation to passive fire protection, performance resin flooring, waterproofing, and roofing solutions, our broad product portfolio enables us to address even the most complex construction challenges.

Why Partner with Tremco CPG?
Our expertise spans a wide variety of advanced product technologies, designed to help you engineer buildings that are:

- More efficient to construct and maintain.
- Resilient against extreme weather conditions.
- Versatile with customizable finishes to meet aesthetic and functional needs.

Trusted Brands, Proven Results
With industry-leading brands like Tremco, Dryvit, Willseal, Flowcrete, illbruck, Nullifire, Vandex, and Euclid Chemical, we're proud to deliver solutions you can trust. Join architects, contractors, developers, and tradespeople around the world in choosing Tremco CPG as your partner to tackle the challenges of modern construction. Together, we'll shape a more sustainable and innovative built environment.

A FULL RANGE OF

SOLUTIONS

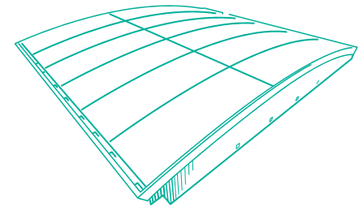

We are uniquely positioned to provide single-source products, services and solutions.

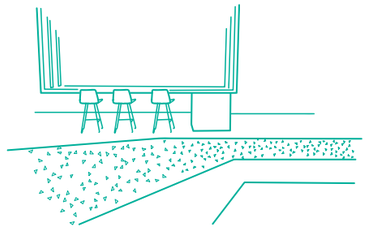

SEALANTS, GLAZING & FAÇADES

No single glazing system can solve every application. For this reason, Tremco is the only single source supplier offering a comprehensive line of glazing sealants, tapes and more.

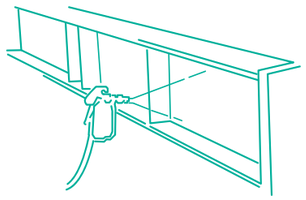

WATERPROOFING

A comprehensive range of waterproofing solutions designed to protect the building structure and internal assets from the damaging effects of water ingress.

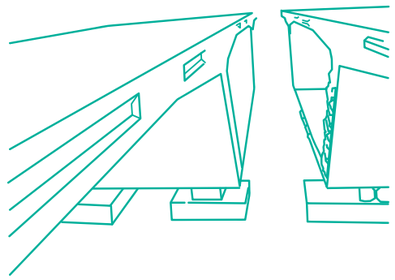

RESINOUS FLOORING

We have been supplying world-class seamless flooring solutions; from innovative industrial and commercial resin flooring through to cementitious floor screeds and fast-curing coating systems.

FIRE PROTECTION

We provide a tested and approved solution to your structural steel frame, which provides a thermal insultation barrier and high impact resistance. We also provide a complete firestop system for wall and floor penetrations.

CONCRETE

We have a wide range of concrete and masonry solutions from cementitious fairing coats and flowable, high build or structural repair mortars to concrete curing and grout solutions which are tailored for concrete structures across the Pacific.

PRODUCT SELECTION GUIDE*

		APPLICATION AREAS	DESCRIPTION
Floor Solutions			
Flowcrete	**Flowshield ESD SL**	Anti-Static Floor Requirements	Flowshield ESD SL is an antistatic, hard-wearing, abrasion resistant, self-smoothing gloss finish resin flooring system that meets BS2050, ANSI/ESD S2020, ASTM F150 Conductive, IEC 61340-4-1 and IEC 61340-4-5 requirements.
Flowcrete	**Flowshield SL**	Corridor/ Chiller Rooms/ Plant Rooms/ AHU Rooms	Flowshield SL is a self smoothing epoxy coating with a seamless and high gloss. The system is suitable for Data Centre corridors, plant rooms, and AHU rooms due to the hard wearing and easy-to-clean nature of the finish.
Flowcrete	**Flowcoat Terrosso**	Office areas/ Cafeteria	Flowcoat Terrosso is a seamless epoxy coating with a speckled flake finish. The system provides a decorative, but functional floor finish for areas such as office spaces, staff cafeterias and wash/changing rooms.
Flowcrete	**Flowcoat OP**	Chiller Rooms/ Plant Rooms/ AHU Rooms	Flowcrete's Flowcoat OP is a pigmented, epoxy wall sealer with a gloss finish. The coating product ensures all 4 walls maintain an easy to clean, non-dusting environment. This product is also available as a floor finish for cementitious substrates.
Flowcrete	**Mondéco**	Entrance Lobby, Walkways, Offices	Flowcrete's seamless terrazzo flooring range, Mondéco, is the ultimate surface material for commercial environments owing to its eye-catching and durable finish. The system is customisable and can be produced in any colour, with patterns and even logos incorporated into the final design.
Concrete			
EUCLID CHEMICAL	**Euco Diamond Hard**	Below Raised Floor Application	EUCO Diamond Hard is a liquid densifier and sealer for bare concrete. It features a unique blend of silicate and siliconate polymers that penetrate concrete surfaces and chemically react to provide an increase in surface density, durability, and abrasion resistance. The product is ideal to create a reliable and dust-proof floor finish below raised access flooring.
EUCLID CHEMICAL	**EUCO Qwikjoint UVR**	Construction Joint Fillers	EUCO QWIKjoint UVR resists fading from ultraviolet light greater than any existing product. It is a fast-setting, semi-rigid polyurea, primarily used for filling construction and control joints in industrial and commercial concrete floors.
TREMCO	**Evencure AC**	Water-Based Cure and Sealing Compound for Concrete	Evencure AC is an acrylic modified emulsion used as a curing membrane on freshly poured concrete. Evencure AC meets AS3799 requirements and exhibits excellent durability as a concrete sealer.
TREMCO	**Formrelease WB**	Oil-Based Concrete Form Release	Formrelease WB is a low viscosity reactive release for all types of formwork. Formrelease WB reacts with the water from the concrete and produces a film of lime soap at the concrete/ formwork interface enabling the formwork to be easily stripped for re-use.

		APPLICATION AREAS	DESCRIPTION
Glazing, Sealants & Facades			
TREMCO	**Dymonic 100**	Perimeter Caulking	Perfect as a durable but flexible sealant for perimeter caulking in moving joints, Dymonic 100 is a medium-modulus, low VOC, non-sag sealant with excellent UV stability. Dymonic 100 is a high performance, high movement, single component polyurethane sealant.
TREMCO	**Dymonic FC**	Perimeter Caulking	One Part, Fast-Cure, Hybrid, Paintable, Moisture Curing, Isocyanate and Silicone Free, High UV Resistant Sealant.
TREMCO	**Tremco SG300**	Glazing and Structural Glazing	A single component, neutral-cure silicone sealant suitable for 2-sided structural glazing applications. The high-modulus and outstanding physical properties of SG300 allow for sealing a wide variety of demanding applications such as structural glazing curtain walling, and joints within curtain/window systems.
TREMCO	**TREMglaze 50**	Glazing	TREMglaze 50 is designed for use as a premium grade weather seal sealant in applications where a high degree of joint movement (+/- 50%) is anticipated such as in structurally glazed curtainwall or aluminium cladding. It can also be used in general applications such as expansion joints and external perimeter joints.
Waterproofing & Roofing			
TREMCO	**Alphaguard Bio**	Roofing	A virtually odourless, chemically cured, aromatic/aliphatic polyurethane liquid applied roofing system distinguished by its high bio-based content. AlphaGuard BIO is ideally suited for situations that demand a high-performance roof system, but where odour is a concern.
TREMCO	**Paraseal**	Foundation Waterproofing	Paraseal LG is a multi-layer sheet membrane waterproofing system consisting of a self-sealing, expandable layer of bentonite laminated to an impermeable, high density polyethylene (HDPE).
Fire Protection			
TREMCO	**Perlifoc HP Eco+**	Steel Structure	PERLIFOC HP Eco+ is a gypsum-based mortar for fire protection of structural steel elements and is noted for its ecological certifications. It offers thermal insulation properties, in addition to having the Environmental Product Declaration (EPD). This mortar provides fire resistance of up to 240 minutes, R240, depending on the structural element to be protected.
Nullifire	**Nullifire SC902**	Steel Structure	Nullifire SC902 is a fast track, intumescent steel coating that provides a fire rating of up to 120 minutes. Applied on-site and off-site in one-coat, it is low VOC, and can be applied at lower temperatures and in high humidity as compared to conventional water-based fire protection.

A. FLOOR SOLUTIONS

SOLUTIONS AND PRODUCTS FOR

DATA CENTRES

Operational performance and structural loading are the foremost considerations when constructing data centres. The high value equipment used in these facilities make it imperative that the environment is leak-free and fire resistant to protect the high amounts of data that is stored. Together with our advanced anti-static floor coatings that help reduce the threat of electrostatic discharge (ESD), Tremco CPG has the complete floor to roof solutions to safeguard and future-proof all aspects of the facility.

B. CONCRETE

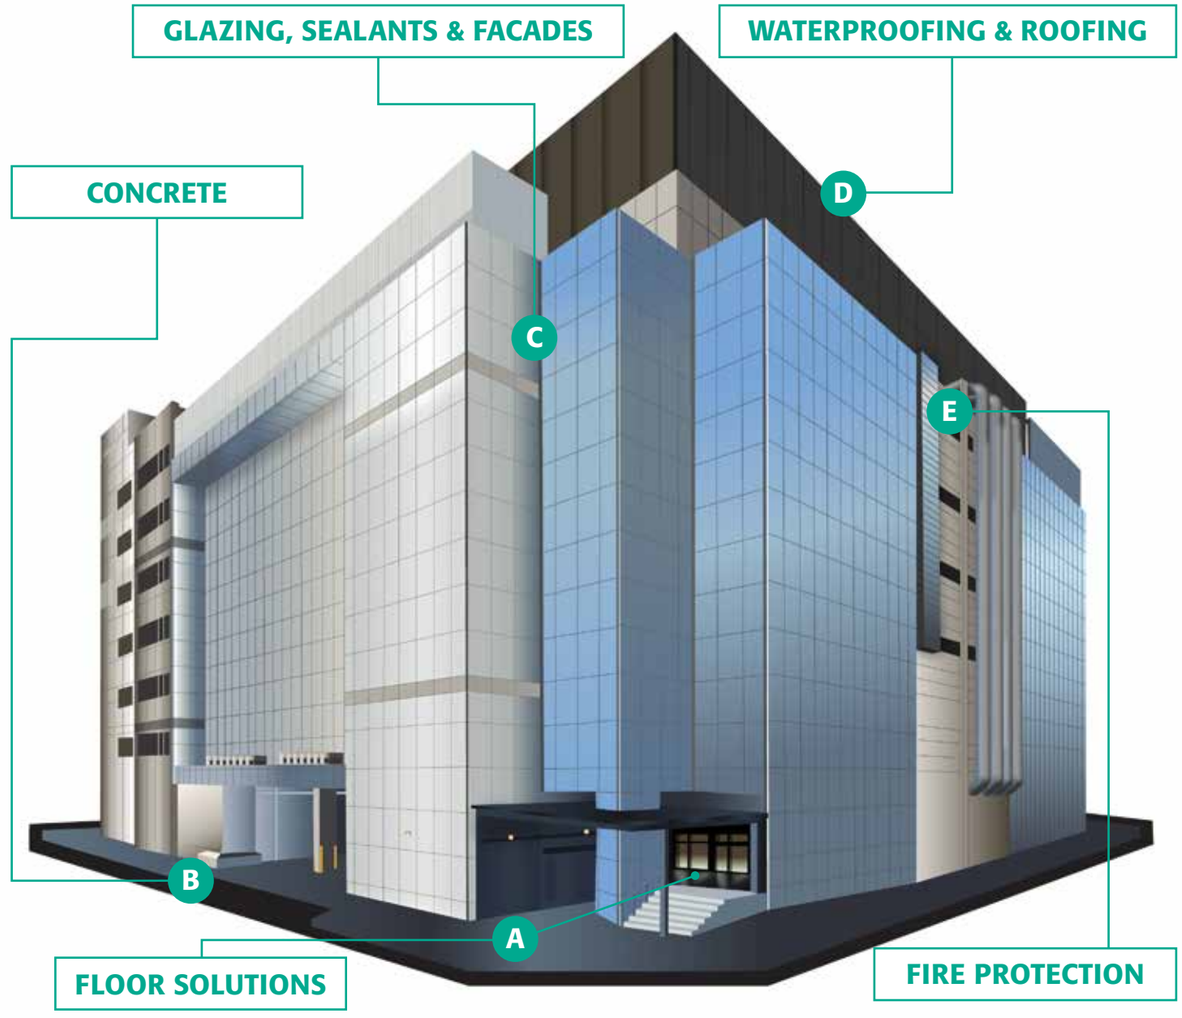

C. GLAZING, SEALANTS & FACADES

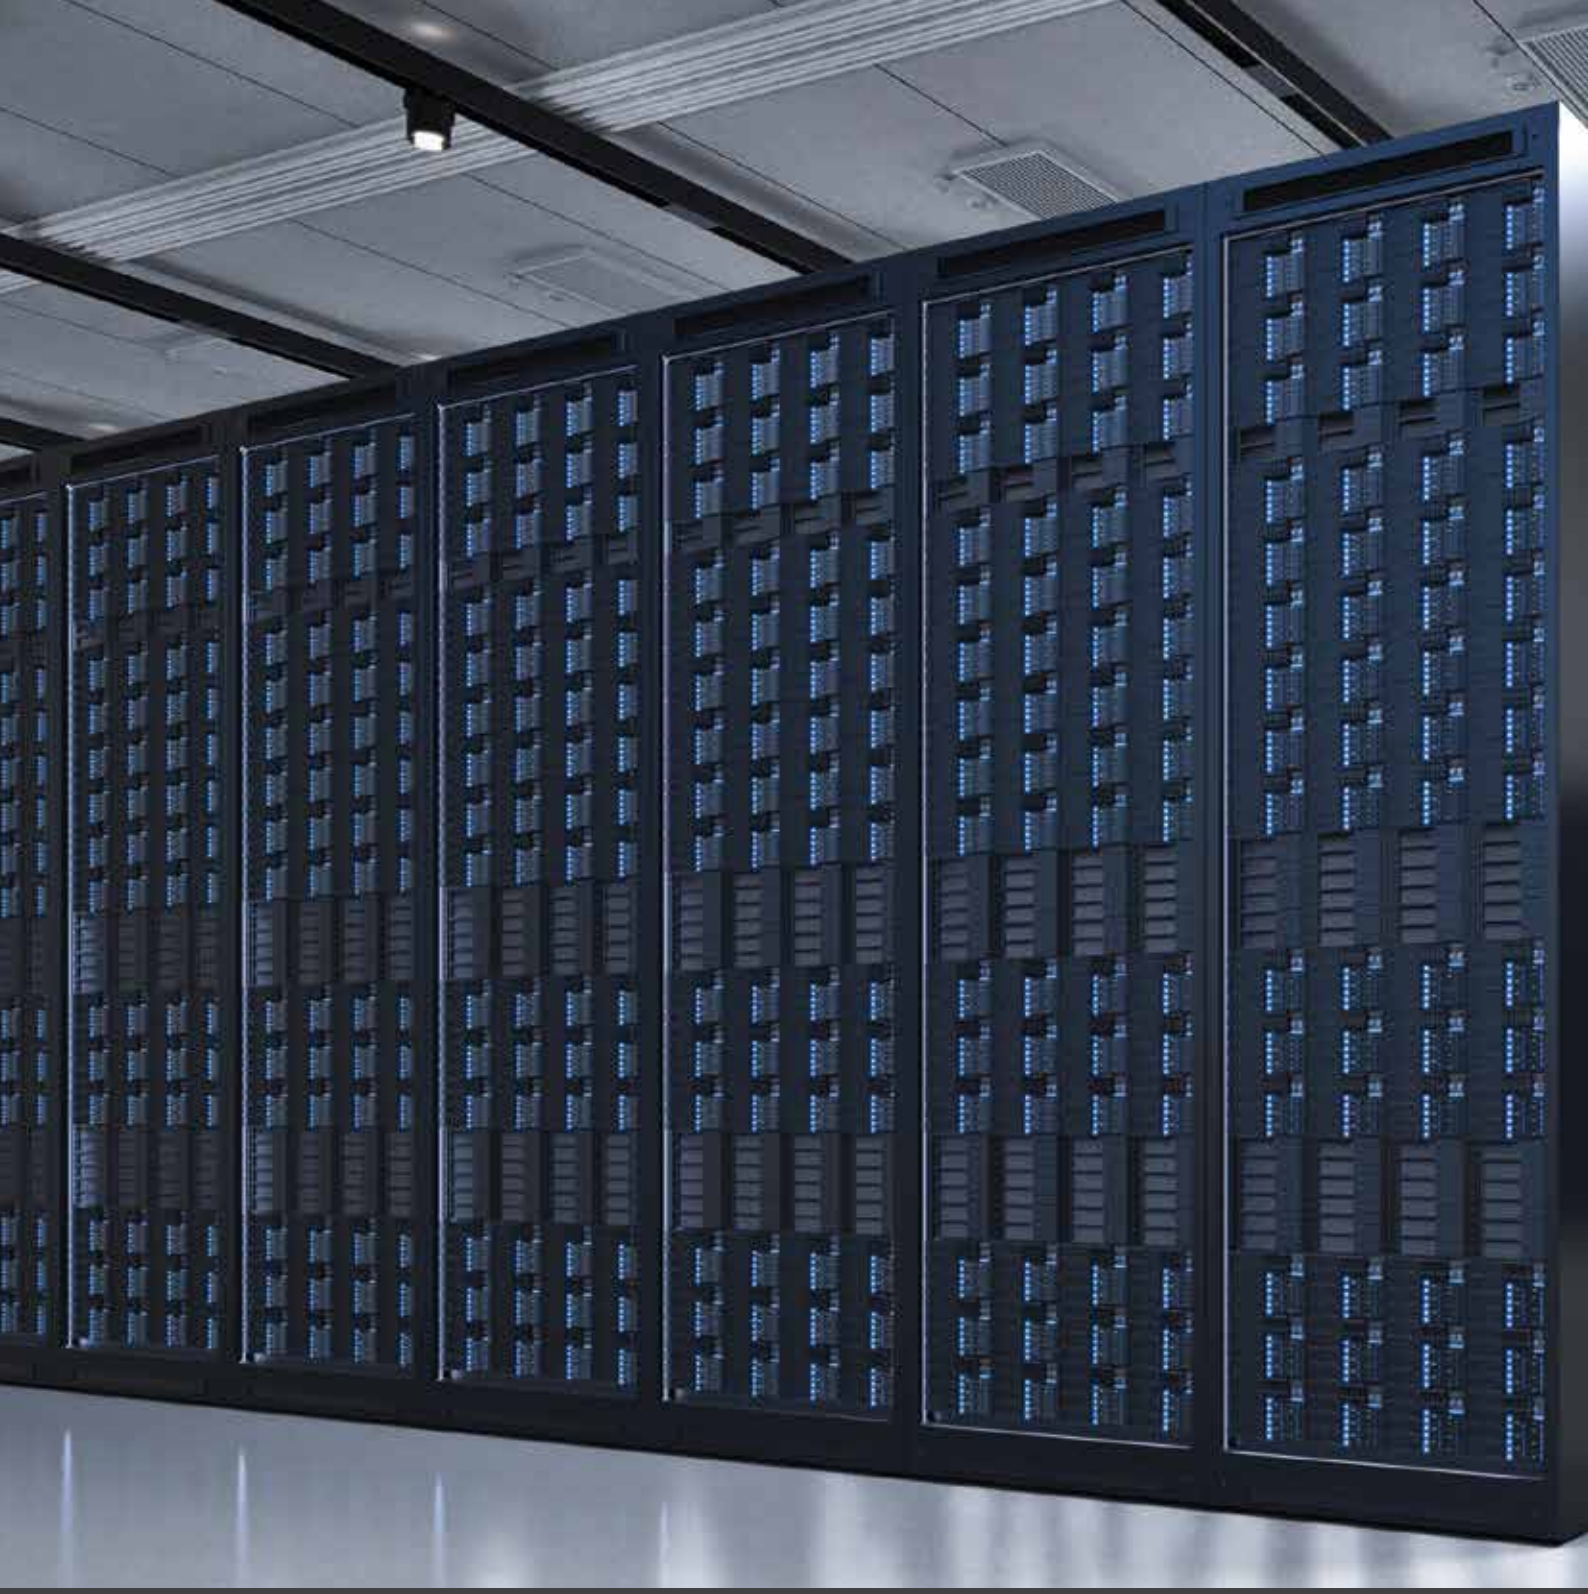

D. WATERPROOFING & ROOFING

E. FIRE PROTECTION

Tremco Construction Products Group (CPG) represents the combined power of brands including Tremco, Dryvit, Willseal, Flowcrete, Nullifire, illbruck, Vandex, Euclid Chemical, Duram, Nuralite, Nurajack, Outright.

Our products and services empower teams to develop, design, restore and engineer structures that are more efficient to build and maintain, are virtually impervious to the elements and can provide any look desired.
